

M.E.C.[®] FLEX NEROVERDE

THE A SERIES BELT

The Neroverde belt is a winning solution. It was purposely developed to be used in squaring lines. It is ideal for heavy duty applications with high grades of abrasion and high temperatures. It is highly recommended for dry lines.

This unique belt, made by A Zeta Gomma in its Sassuolo facilities, is the result of much technological research and passion. A winning combination that has no equal.

The A series belt pays tribute to a successfully history and to team attitude as well, and whose better sum up the values of our territory.
